A BATH IN STORE FOR THEM

HEALTH OF LITTLE CHILDREN TO BE LOOKED AFTER.

Mrs. M. Thompson and a Corps of Kamehameha Students Will Systematically Treat Children.

The general vaccination of school children in Honolulu has had the effect of causing a falling off in the attendance at the Hawaiian kindergarten schools. The Hawaiian parents, generally, do not approve of vaccination, insisting that it is unnecessary and extremely painful to their children.

Some of the Hawaiian mothers have even gone so far as to enquire the health authorities for their action. A number of these have had the benefits of vaccination explained to them and their minds set at rest.

This condition of affairs, together with other matters of health, which have come to the notice of the kindergarten ladies recently, has induced Mrs. U. Thompson, a trained nurse at Kamehameha school, to start in upon the work of treating, in a systematic method, the several hundred young children attending the kindergarten schools.

Mrs. Thompson will be assisted by a corps of boys and girls from the Kamehameha schools. Mrs. Thompson's plan of work will be to visit each school and to thoroughly bathe the little ones. If they are suffering from any skin diseases treatment will be given them.

Mrs. Thompson will also strive to teach the parents the art of caring for their children's health and especially in treating those who have been vaccinated.

And all of this work Mrs. Thompson will do without pay, it being her contribution toward the Kindergarten movement. The association will back her up in what she does and will pay the expense of her assistants. A friend has given an amount of money which will provide the medicines for the time being.

THE HANDBALL TOURNAMENT.

The entries to the handball tournament will all be in by tomorrow night. Those who have already consented to participate in this sport are F. H. Kilbey, B. F. Burgess, H. E. Coleman, A. H. Moore, W. J. Conn, M. J. Scanlan, George A. Bower, M. A. Check, Dr. G. W. Burgess and A. C. Davis.

NORTHERN EXPLORATIONS.

Plans of the Next Nansen Expedition for Research by Land and Sea.

CHRISTINA, November 18.—Kjalmer Jones, the Norwegian army officer who was with Dr. Nansen's recent Arctic expedition, referring to the plans for the doctor's trip north, says arrangements have already been made for a sojourn on Franz Josef Land. The Fram, Nansen's ship, will be accompanied by a vessel called the Star-kodder. There will be many more dogs and scientific men, and one of the ships will advance into the ice until it becomes icebound. From there sled expeditions will start north. The other ship will go along the border, making scientific researches in the ice, in the water, and at the bottom of the sea.

SALE OF FANCY ARTICLES.

MRS. GEO. E. BOARDMAN will open her annual Christmas Sale of useful and fancy articles, comprising Cushions, Sachets, Center Pieces, Etc., in fine silk embroidery, on Wednesday, the 1st inst., at her residence, Kapiolani, corner of Lanalilo street.

Merit

Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. If a medicine cures you when you are sick; if it cures your neighbors and your friends when they are ailing; if it makes wonderful cures of many diseases everywhere, then beyond any question that medicine possesses merit. That is just the truth about Hood's Sarsaparilla. Prepared by a combination, proportion and process unknown to other medicines, it has curative powers peculiar to itself. We know it possesses great merit because it has

Made

Cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently cures, when all others fail to do any good whatever.

Hood's Sarsaparilla is known to possess merit or the power to cure disease; it is known to be the best building-up medicine on earth; it is known to be honestly advertised, and for these reasons the people buy and take Hood's Sarsaparilla almost to the exclusion of other preparations. In fact, Merit Made and Merit Maintains the confidence of the people in
